WELCOME

At Jaxx, we like doing things differently. Since our inception over 10 years ago, we brought a modern sensibility to the grand ideas of alternative furniture, i.e. the bean bag. We have developed the perfect concoction of bouncy, supportive foam to provide unsurpassed coziness. We cover our foam in durable, soft fabrics. With the interior liner, you can easily remove the cover for washing or change it out to fit your decor.

This concept moved from bean bags into full-fledged furniture. We started dreaming of supportive, comfy furniture without the stiff, immovable nature of traditional furniture. We created a line of products that are not only beautiful but also transform to suit our customers' needs. We have ottomans that can be chairs and chairs that can be beds. Our indoor line is more than a few pieces of ordinary furniture. They are elegantly designed endlessly versatile solutions. We believe that the future of furniture is convertible—pieces that evolve with you and your family.

We worked to make Jaxx a brand with principals: being environmentally conscious, making a quality and long-lasting product, and manufacturing right here in the USA. We hope you enjoy our versatile, adaptive furniture.
