WELCOME

At Jaxx, we like doing things differently. Since our inception over 10 years ago, we brought a modern sensibility to the grand ideas of alternative furniture, i.e. the bean bag. We have developed the perfect concoction of bouncy, supportive foam to provide unsurpassed coziness. We cover our foam in durable, soft fabrics. With the interior liner, you can easily remove the cover for washing or change it out to fit your decor.

This concept moved from bean bags into full-fledged furniture. We started dreaming of supportive, comfy furniture without the stiff, immovable nature of traditional furniture. We created a line of products that are not only beautiful but also transform to suit our customers' needs. We have ottomans that can be chairs and chairs that can be beds. Our indoor line is more than a few pieces of ordinary furniture. They are elegantly designed endlessly versatile solutions. We believe that the future of furniture is convertible—pieces that evolve with you and your family.

We worked to make Jaxx a brand with principals: being environmentally conscious, making a quality and long-lasting product, and manufacturing right here in the USA. We hope you enjoy our versatile, adaptive furniture.

GAMING

PIXEL

GAMING CHAIR

Low to the ground and lightweight, with a handle for convenient transport, the Pixel Bean Bag Chair can be placed in front of a television or monitor and quickly moved away when not needed. Because the Pixel is so good looking, you will want to show it off all the time. The top and back are soft vinyl, which is not only richly colored but durable enough to withstand daily use. The sides are black denim, and the chair features white contrast threading throughout. The EPS filling inside the Pixel arranges itself to conform to your body, while the seat is large enough to stay relaxed while taking on the big boss.

NIMBUS

When you see the Jaxx Nimbus Spandex Bean Bag for the first time, you can't help but want to sink deep down into it and never get up. This is an oversized bean bag that you can sit upright to give you back support for working, or lay it out flat for reading and playing video games. Basically, whatever position makes you comfortable, this bean bag morphs to support every inch of your body. Available in small or large, the generous sizes gives kids, teens and even adults maximum head to toe support. Plus it's super stylish bold colors and clean lines give it a really modern look. This is a chair that can find a place anywhere, from a contemporary living room to a casual college dorm.

ZIPLINE KIDS LOVESEAT

The Microsuede Zipline Kid's Convertible Loveseat is the perfect hangout spot to expand a child's curious mind—be that beating the latest video game or solving a Rubik's Cube. The flip-open design can morph from a spacious loveseat sized perfectly for them, to a wide table or desk, and into a comfy crash pad. The lightweight foam core makes it easy for them to flip the Zipline Loveseat whenever the need arises. They can cozy up with a friend and check out the latest comics on the loveseat, and then fold it flat and place the wide ottoman in the center to lounge the day away reading. Fold the top portion back over to form a platform perfect for board games or mad scientist experiments. And don't worry about the cover. The soft microsuede is removable and machine washable, and the foam is protected by an interior liner to ensure lasting quality.

ZIPLINE KIDS SOFA

The perfectly kid-sized Zipline Kid's Convertible Sofa gives your child tons of combinations to create their own space and hang out. Place the ottoman in the middle of the sofa to form a table or desk, or lay the sofa out flat with the ottoman in the center for a generous, comfortable platform for lounging. Whatever the mood, the lightweight, polyurethane foam core makes it easy for them to flip out and cozy down. Not to mention, we ensure your Zipline stays fresh from day one by designing our sofa with a removable, machine washable microsuede cover and protective inner liner. So whatever the fun or mischief, they'll be playing on this for years to come.
