*Level*

**Note:** Mounting strips are designed to be shorter than the installed panels in order to hide exposed edges. They must be inset 3" from the outside edges to provide optimal support and remain hidden from side view.

## Installation Instructions

1. Find and mark the center of your Panelist design

2. Measure 3" on the right side of your center mark. When installing as a headboard, place the bottom edge of the board 1" above the mattress horizon.

3. Making sure the mounting strip is level, screw it into place, being careful not to overtighten.

4. **Queen:** Measure 18" from the outside edge of the mounting strip and make a mark. Screw the 2nd mounting strip into place.

**King:** Measure 7 3/4" from the outside edge of the mounting strip and make a mark. Screw the 2nd mounting strip into place. Repeat for the 3rd mounting strip.

5. Repeat steps 2-4 to the left of the center mark.

6. Position wall panels, ensuring they are level when doing so. The micro-velvet on each panel has a directional nap. They can be arranged uniformly or varied for effect.
